Also exempt from such taxes are purchases by the contractor and his subcontractors of (A) Materials, equipment and supplies for use in erecting and improving any real property included in the project, provided that such materials, equipment and supplies are to become an integral component part of such structures, buildings or real property and (B) material, equipment and supplies other than those described in (A) above, to be sold to the owner pursuant to this contract. These taxes are not to be included in the bid.
